# STATE PROCUREMENT OFFICE EMERGENCY PROCUREMENT REQUEST

STATE PROCUREMENT OFFICE

1. TO: Chief Procurement Officer

2. FROM: DBEDT/ NELHA/ Laurenec Sombardier, Interim Executive Dir.

Department/Division/Agency

Pursuant to §103D-307, HRS, and Subchapter 10, Chapter 3-122, HAR, the Department requests approval for the following:

3. Date 2/28/2011

4. After the fact ☒ YES ☐ NO

5. Nature of the Emergency

On January 21, 2011 one thousand feet of NELHA's 12" deep seawater pipeline floated to the surface, broke loose of its anchor and began drifting in the current. The US Coast Guard classified the drifting pipeline as a major hazard to navigation and requested that the pipeline be salvaged and removed from the ocean as soon as possible. The vendor listed was hired to assist with the recovery of this pipeline.

6. Vendor: Keahole Point Fish LLC  
Address: 74-429 Kealakehe Parkway  
Kailua-Kona, HI 96740

7. Price:  
\$3,046.60

8. Description of goods, services, or construction to be purchased

Provide a vessel with a suitable lifting crane and crew to tow the pipeline off of the shoreline, lift the weighted end onto their vessel with a crane, cut the weighted end off of pipeline, remove surplus hardware from the pipeline in preparation of towing it and tow it into Kawaihae Harbor three miles away.

9. Reason for Vendor Selection

Keahole Point Fish LLC was the only company on the Kona/Kohala coast immediately available to respond on short notice and capable of towing/lifting the weighted end of the 12" pipeline onto their vessel. The only alternative would have been to mobilize a vessel from Oahu, which would have been far more expensive and time consuming.

10. Direct questions to: Jan C. War, Operations Manager

Phone: 808-217-0329

11. I certify that the information provided above is to the best of my knowledge, true and correct.

Date

Reserved for SPO Use Only

12. Chief Procurement Officer's comments:

Approval is granted based on the department's determination that recovering and removing 1000 ft. of floating deep seawater pipeline was necessary due to potential navigational hazard to vessels around the Kona coast and safety concerns to passengers. This award is required to be posted on the Awards Reporting System.
